

IIE Rosebank College donates ten (10) computers at KwaJabula High school to 5 performing schools.

The IIE Rosebank College donates 10 computers at KwaJabula high school in Umbumbulu at Durban KwaZulu Natal to Top 5 performing schools on the 25th of September 2020. This donation was done as form of appreciation to the teachers of KwaJabula high school and four (4) other high schools in the UMkomaas district, for their dedication during covid-19 pandemic. Their dedication made these schools to be recognized by CEIA member's institutions. The main purpose for Rosebank College to donate these computers to these schools is that they saw previous students struggling to use computers, so in that way they are preparing teachers to teach these learners how to use computers.

Mr. Isaac Pule (Student Advisor) from The IIE Rosebank College handing computer to one of the principals.

Main purpose for the day

The main purpose was to encourage and appreciate the teachers across these five (5) Schools for their dedication towards the learners during the covid-19 pandemic, as they did not get an opportunity to thank the healthcare workers from Odidini clinic for their dedication during hard times of covid-19. Teachers and healthcare workers risked their lives to make sure that learners get best results that will allow them to go to varsities next year. The commitment of teachers and health workers brought a major success as learners continue producing good results, and teachers were not afraid of losing their lives. They continued working following the guidelines that were stated by the health care workers.

Mr. Dlamini (UGU district Teachers Development manager) handing over appreciation certificate to a health worker Mrs. Khumalo, along with two other principals.

There is no consistence playing small

The commitment of health workers brought to a level where they being recognized and appreciated by Mr. Dlamini who is the district manager for UGU district for their hard work. Odidini clinic has produced excellent work towards these schools, whereas Odidini clinic is a small clinic which is short staffed and does not have all the resources they need as a clinic. Mr. Dlamini said “we cannot thank Odidini clinic enough for their dedication even though we have an arrangement with them on the last minutes before schools open but they still came forward and helped us”.

It was surprising how these schools and teachers risked their lives when they attended school during high level of lockdown, it shows that they are very dedicated to their work and do not allow any circumstances coming their way to stop their success and plans for their future. In this day and age few learners/teenagers are anxious for education since they have this mentality of “I can be successful without Education”, but the truth is someday somewhere in life Education is needed.

The school (kwaJabula high school) awards and certificates for achievement that they have received in the past years.

Donations from universities and colleges.

Five institutions that were impressed that made them grab the opportunity to give back to these schools, though some were their first time to be part of this program, like Thekwini FET College-private. They were so excited and blown away by the school and even the program itself the lady that spoke on behalf of Thekwini college said., “we didn’t know what to bring along with us because we didn’t know what the school did and didn’t have but we also couldn’t come empty handed we are willing to be part of this program and continue getting invitations on things like these, we are still a small college but our hands are open whenever you need anything we are willing to help where we can”. The Thekwini College donated with 150 face mask.

MANCOSA was also the part of the program were Mr. Wonderboy Zungu who works at MANCOSA and CEIA national coordinator was the one who picked and chose the institutions that can be part and parcel of the day, he said “we came with the idea of thanking and appreciating the educators and stick with them because they do so much work that makes the learners to be somebody someday because of their hard work, most of the time we focus on learners and forget about the things teachers go through to shape the future of a learner

Who is willing to have a bright future? There is no future/education without an educator". MANCOSA donated 100 face shield.

Rosebank College who took the spot and saw the need and importance to donate 10 computers on the day. Mr. Isaac Pule from Rosebank College said, 'I am so impressed to see a school that is in a rural area and is led by a male principal so clean and organized. We were very happy to get the invitation when Mr. Wonderboy Zungu explained the purpose for the day in this program we thought why not as Rosebank college take this opportunity to show that we recognize them and we are proud of the effort that they give to the learners. These computers will help so much by adding to the ones that schools already have by us giving these computers is to say thank you keep on doing the greater work". Richfield and DUT had to be part of the day but they couldn't make it.

DPRE3 students from Rosebank college were very happy to be part of the day and impressed because they have never seen such things happening in their former high schools, seeing a high school in a rural area having all the equipment's that even some urban and township schools don't have. It is breath taking to hear were this school started from till know as Rosebank students we were very touched and even wanting to attend more programs like these were educators and even the district wanting to put their schools in the next level of education and geared to see their leaners having a brighter future.
